# PRICE SHEET

## FILM SERVICES

- Films are spliced onto larger reels, hand-cleaned and lubricated.
- Films are scanned frame-by-frame into a computer.
- (1) DVD set included.
- Master files placed onto hard drive\* or flash drive.\*

### Archival 8mm & Super 8 Conversion

- Our most popular service.
- Exposure, color & contrast is adjusted, enhanced, and restored scene-by-scene.
- Available in HD (ask for pricing & details).
- Designed to digitally archive & preserve your film for the present & the future.

### Enhanced 8mm & Super 8 Conversion

- Economy version of Archival Service.
- Adjustments & enhancements are made up to 3 times per small 3" (50') reel.
- Larger reels are adjusted based on overall color and exposure shifts throughout the reel.

### Basic 8mm & Super 8 Conversion

- Film is scanned as-is.
- No adjustments or enhancements.

### Super 8 Sound Film Conversion

To ensure unmatched picture quality & sound accuracy, sound films must be converted with two devices- one for picture and one for sound. Once in the computer, the picture and sound are matched for lip-sync. This requires extra preparation and labor.

Prep & Setup	\$59.95(1st 1200')
HD Archival	\$quote
Archival	\$ .39/ft.
Enhanced	\$ .25/ft.
Basic	\$ .18/ft.
Sound	add \$ .15/ft.

### 16mm Conversion

- Film can be adjusted and enhanced the same as 8mm.
- Rates are based on the running time of the film.
- Basic rate is calculated at 1.5x running time.
- Enhancement rate is calculated at 3x running time.

Prep & Setup	\$ .04/ft.
16mm silent or sound	\$74.95/hr.

\*We can place the original files onto an external hard drive or flash drive for preservation. Drives are sold separately. We guarantee all work on drives we supply.
